An aerial photograph of a large, multi-story brick building with a dark tiled roof, identified as a hospice. The building has several dormer windows and a central entrance. In front of the building is a large, curved asphalt parking area with yellow diagonal markings. A small, circular landscaped area with brown mulch and small plants is in the center of the parking area. Two white vans are parked on the left side of the parking area. The background shows a green lawn and some trees.

40 years of ellenor BORN IN 1985

In 2025, ellenor celebrated its
40th birthday – and we had many
celebrations to thank our community.

But it's important to look back over where we
started, and so our founder Graham Perolls
stopped by to talk us through the early days.

- Financial support (including help with benefits)
- Therapeutic activity groups
- Group support
- Individual support

Holistic care is just as important as clinical care – for patients, carers and their families.

AT OUR HOSPICE... ON OUR WARD

Your kind and continuous support had a direct impact on the care we gave and the families we cared for.

Our Inpatient Ward cared for **203 patients**, with palliative and end-of-life care.

Patients stayed on our ward for an average of **10 days**.

At ellenor, life is for living – and every moment counts, which is why patients are asked what matters to them.

Our Ward Team is very well supported by other teams to provide:

- Days out
- Relaxation
- Opportunities to try something new
- A special meal
- A wish list experience
- Hair and beauty
- Celebrations (e.g. Birthdays or anniversaries)

If we can make it happen, we will.

Big or small, we know it makes a difference.

CLINICAL CARE AND HOLISTIC CARE WENT HAND IN HAND

Weekly visits from therapy dogs Suzi, Toffee and Dixie brought joy, smiles and happiness to patients, their families, and friends.

Plus three very waggy tails...

"We don't just treat the symptoms – we make space for family time, conversations, or even a film night in ellenor's cinema."

CATERING

Here at ellenor, it's not just food – it's food made with love.

Every day last year, our lovely catering team was busy making fresh food for our patients on the ward, for visitors to our café, staff, or for the public who booked our outside catering service.

On the ward

Our catering team worked closely with the nursing team to create food for patients to enjoy but also to be able to manage.

Their creativity in presenting food in an interesting and appealing way knew no limits!

Breakfast, lunch, dinner, afternoon tea and everything in-between was enjoyed by our patients.

The catering team also made several celebration cakes to order for patients and their families to enjoy at their events here in the hospice.

In the café

A full menu was and still is available in the café, including breakfasts, hot lunches, sandwiches, snacks, delicious homemade cakes, plus meal deals, and cake boxes to take home. Their afternoon tea was hugely popular too and the coffee machine is always on.

Outside ellenor

Our catering team was booked for a variety of events including wakes, parties, celebrations, lunches and get-togethers at home. Their platters, buffet menu and afternoon tea choices mean there was something for everyone, and any size event.

Catering in numbers
